According to new guidance Nurminen Logistics expects that its net sales will improve significantly compared to 2016 and operating result will improve clearly compared to 2016 and will be clearly positive. The updated guidance covers both reported net sales and operating result as well as comparable net sales and operating result.

The previous guidance was: Nurminen Logistics expects that its comparable net sales, comparable result and earnings per share will improve compared to 2016.

The change in result guidance is due to the continued strong performance of the company during the second half of the year. The market conditions have developed favorably and Nurminen Logistics has managed to increase net sales and operating result for almost all services. Net sales have increased in Finland and especially in the Baltic countries. In addition, due to the company's capital structure and balance sheet strengthening in the summer, the outlook has developed in a positive direction.
