

Nurminen Logistics Plc and Shanghai Way-easy Supply Chain announce a commercial partnership to strengthen rail freight and logistics services in Europe and China

Under the commercial partnership, both parties provide rail freight and logistics services throughout Europe and China by leveraging Nurminen Logistics' extensive operations and Way-easy's well-accomplished local service competence.

The Way-easy has a strong client base for railway connections to Europe. The new Southern Trans-Caspian route is vital and has further potential, where cooperation builds on the complementary benefits.

"With Way-easy we are gaining significantly more sales power to China, where demand for low-emission rail service is constantly increasing," says Olli Pohjanvirta, CEO of Nurminen Logistics.

Kenda Mo, CEO of Way-easy Supply Chain, says that in working with Nurminen, more customers now have access to high-quality, China-Europa-connecting rail services.

"We are excited about the opportunities the cooperation offers and are committed to promoting rail logistics as a low-carbon transport option in the long term," says Kenda Mo.
